

**Voice Class ~**  
**Breathing, Listening, Reading**  
Taught by Heather MacLeod  
2024 Pipers' Gathering

The class will help the participants to

- Become more familiar with their own individual voice as an instrument through awareness of breathing and breath control
- Focus their listening on the melody
- Connect what they hear to what they see on a page of printed music

For those participants who are interested, Heather will provide:

- A printed outline of the class
- A listening list of suggested song titles and artists
- Sheet music for songs used in the class
